Permit Supervisor
Division of Oil, Gas and Mining
355 West North Temple

Salt Lake City, Utah 84180-1203

Dear Daron:

Genwal Resources, Inc. is hereby applying for a minor amendment to their Mining and Reclamation Plan, which will allow us to extend our existing warehouse. Genwal desires to add a 20 x 40 foot extension to the southeast corner of the warehouse (Figure 5-3). The extension is needed to house spare parts for the mining equipment.

Genwal is proposing a steel framed and sided building, resting on a concrete foundation, with a 6" slab-on-grade concrete floor, reinforced with woven-wire mesh. Installation of the floor, footings and foundation will require approximately 20 cubic yards of concrete.

Runoff from the disturbed area will not increase since the building extension is being placed on an existing impervious area currently covered by asphalt. Runoff from the area is collected in the existing sediment pond.

Addition of the warehouse extension will not result in an increase to the reclamation bond because such a small modification is covered by the contingency portion of the bond. Estimated reclamation costs associated with the warehouse extension are approximately \$5,000. The concrete would be disposed of within the mine workings prior to sealing the mine.

Construction will begin immediately upon receiving Division approval. It is estimated that construction will take approximately 2 weeks.

I appreciate your assistance in this matter and look forward to working closely with you and your staff.

Sincerely,

Randolph B. Gainer, P.G.
Environmental Manager
